

SOLUBLE PHOSPHOLIPIDS FOR USE IN CLOTTING FACTOR ASSAYS

ABSTRACT

5 The present invention provides a soluble phospholipid reagent and
assays of clotting activity using the same. The methods of the invention can
be used to carry out any clotting assay or other assay of clotting activity that
traditionally relies on platelet membranes or synthetic membrane preparation
by substituting therefor the soluble phospholipids of the invention. Assay
10 compositions and kits comprising the soluble phospholipids of the invention
are also provided.
